[Rowdy Phillips | Portfolio](#)

[rrp034 \(Rowdy Phillips\)](#)

Skills

Basic understanding for all microsoft office applications

Use of Git tools and GitHub pages

Coding languages Java,HTML,Python,c,c#,SQL

Designed a group chat project in java with a self hosted server, allowing multiple clients to connect with different groups

Designed a UI for an online storefront with a group of students

Employed HTML, CSS, and advanced AI methodologies to architect a streamlined, single-page layout. Refined core front-end principles and contemporary development pipelines through the construction of a comprehensive professional portfolio.

Utilized HTML, CSS, and Flexbox to architect and develop a mobile-responsive timeline interface. Leveraged AI-driven coding methodologies for iterative design, rigorous testing, and cross-platform layout optimization.

Employed Bootstrap to enhance a global-facing web platform by integrating localization, accessibility features, and interactive components. Advanced inclusive design methodologies and responsive framework implementation while adhering to industry-standard accessibility protocols for front-end, client-centric development.
